Doven, Del., Nov. 4.-The following address has ast been issued here;

HEADQUARTERS REPUBLICAN STATE CENTRAL COMMETTEE OF DELAWARE, DOVER, Del., Nov. 4, 1880.

To the Republicane of Delaware:

To the Republicans of Deleware:

I congrammate you on your splendid victory. A party so disorganized in 1878 that it nominated no lieset has milled and so perfected its organization and so thoroughly brought out its vote as to reduce the Democratic majority to 600. With a full assessment continued and complete organization, 1882 will writees the political redemption of your base, and Delaware will break from the Solid South by falling into the line of her interests and ratural association with the great North. The days of Democratic rule in Delaware are rapidly passing. The scapite is about departing. Appealing to the better judgment and conscience of our people, we this day bement and conscience of our people, we this day begin the campaign of 1882. Preserve your organization, watch the assessments, and pay your taxes.
We are not routed; we are simply beaten into a
Minister discipline and a more perfect organization.

DEMOCRATIC WRATH AND REVILING. HOWL OF FRAUD RAISED AGAINST THE REPUBLI-CANS-BITTERNESS AGAINST JOHN KELLY-EVERY FACTION BLAMING THE OTHERS.

The Democrats are completely overwhelmed by their signal defeat in this State. In an extended tour of the political resorts in this city vesteriay only two members of the party could be found who were in the least cheerful. One of these was, of course, John Kelly, who has elected his private Mayer and apparently cares for little else. The butter revilings of his fellow Democrats do not seem to disturb him. The other Democrat who were the semblance of cheerfulness was Writiam H. Barnum. He had just arrived from Connecticut, where he is said to have devised a new fraud trick, and this undoubtedly gave him a feeling of self-satisfaction that, for the time, sank all considerations of Hancock's defeat. What this new idea was the reporter was not long in finding out. At the Republican Committee Rooms telegrams were received from John C. New and other Western Republicans, stating that dispatches from William H. Barnum had been shown them claiming New-York State for the Democrats by a small majority. The reporter returned to the Democratic National Committee rooms and was told that "Mr. Barnum had not given up New-York State by no means." Almost struck dumb with amazement by such an assertion, the reporter gasped, "On what-" but gal votes were cast. before he could finish the sentence the answer came: 'Fraud! the - d-dst fraud that ever was.' Where !" said the reporter. "Right here in New-York City," was the answer. "Thousands of illegal votes registered and cast-money used by the wholesale-tremendous frauds that demand an investigation by Congress." "And you really claim the State ?" "We give up nothing yet. There will be a meeting of the Executive Committee to-night to consider the matter."

This, then, was the new frand idea which made chuckle to himself, probably, over the fact They openly boasted that they would not. And

that it would exceed even the Chinese letter swindle, and fitly crown his wenderful "enapaign of fraud, forgery and theft." It was not a new ica, either, as may be seen by reference to THE Tensung of Tuesday morning, which gave an account of the preparation of an address by Mr. Barnum, to be used in a "contingency," and containing this same brilliant idea. Inquiry among other persons connected with the National Democratic Committee revealed an evidently preconcerted plantalay the blame of defeat on "frand" and John Keily, but it seemed doubtful last night if Mr. Baraum could get any respectable Democrats to aid him in the last trick of the campaign, as one of them said "it would die stillborn."

The feeling among the members of the Democratic feel joyful over the victory of Tuesday.

"The Tilden men sold out Hancock," said John B. Haskin, one of Mr. Kelly's assistants, yesterday. "The city did well, but the State shows up very bad. That proves it." "But Chairman Fowler says the State did well,

the Tilden men sold out Hancock. They didn's between the two families were nest social, and based on Tuesday's work were very bearty. "We said that a year ago, and I am irre to say we have made assess of ourselves by not sheking to it. If the Domocratic party in this city cannot learn by experience then it will continue to be routed at the polic." "New look at it," continued the speaker, warming up to his subject. The Germans came in vesterday for outer denunciation by both frong Hall and Temmany leaders. The fact that the two Germans who were placed on the Democratic nicket were both "men of no account," as one Democrate expressed it, "and yet ran away ahead of the other nomines, showed that they voted for their every men and out the rest of the tested." A Democratic point metaprior said the narry was "handraneed by the supremacy of John Kelly." In fact, it was a particularly banday yesterday for "nesses" in both New-York and Brooklyn, and the sentiment expresses by Mr. Kelsey, Secretary of State of New-Jersey, was that or unpartical Democrats everywhere. "No John Kelly for us in New Jersey," he said. "Keep them in New-York, if you admire them."

THROATS-MR. KILLLY'S SPECCH The Tammany Committee of Organ zetton held a meeting yesterday, which began in the afternoon and was protracted into the evening. Before the neeting the members of the Committee stood about the entrance to Tammany Half in groups waiting for the coming of John Kelly. There was a functional gravity on their constenances, " How are things? said one man to an acquaintance, viron he met on the steps "Oh. h-1 'was the laconic reply, as the questioned man turned away. That was apparently the prevailing sentiment.

Upon the arrival of John Kelly the Committee descended to the room in which it usually meets, and was called to order by Justice Duffy, who was more savage than usual, and whose countenance indicated a disgust to which mere language could do no justice. Preliminaries were inceremoniously dispensed with and John Kelly asked per aission to offer some resolutions to obtain information. The permission was taken for granted, and Mr. Kelly's resolutions were read by Justice Daily. They premised that it was well understood that large numbers of persons who were residents of Washington, D. C., Vermont, Massachusetts and the Western States, with colored persons from the South, were brought into the Western part of this city, and that they voted the Republican ticket, thus subverting the will of the people; and they called upon the counsel of the Committee, Messrs. Wingste and Anderson, to examine the registry and poll lists and to take the action necessary to secure the arrest and presecution in the criminal courts of persons who voted illegally. Mr. Kelly said he wished the resolutions to lie on the table for a while until reports had been received from the Assembly Districts

relative to illegal voting. The first person called upon was ex-Justice Quinn, of the 1st Assembly Destrict. He said that or his own knowledge he knew of no tal e registry or illegal voting, although he believed that 200 ille-

Mr. Kelly-The gentleman hasn't given his views on the increase of the Republican vote. The Republican vote in the district is an increase of 23 per cent over that of 1876, while the Democratic increase was only 10 per cent.

Justice Quinn-I cannot state more with regard to idegal voting than I have stated, for if I had known of any illegal voting I should have prevented it. The Republican lucrease does not all come from that source. I believe that a great many of these who call themselves native Americans and Barnum happy, which made him the German Lutheraus remed to vote with us.
